As grounds for this request, the undersigned attorney states as follows:

1. The first and last names of three of the inventors were reversed on the cover page of the issued patent.

2. These typographical errors were made during publication of the issued patent and were the fault of the Patent and Trademark Office.
3. The application as filed correctly listed the names of all six inventors in the proper order.

CONCLUSION

In view of the above, Assignee respectfully submits that the errors in U.S. Patent No. 6,417,638 B1 as referenced above are correctable pursuant to 35 U.S.C. § 254 and 37 C.F.R. § 1.322. No new matter is added by these corrections; therefore, reexamination is not required. Accordingly, Assignee respectfully requests that the Commissioner issue a Certificate of Correction for U.S. Patent No. 6,417,638 B1 reflecting the corrections as they appear on the enclosed PTO Form 1050.
